

New Elementary 25 Construction Option A 2.1

The project proposes to construct a new elementary school with 44 home room classrooms to accommodate growth and provide permanent space for students. The new building will be located on undeveloped property owned by the District on 144th Street near 80th Avenue. The proposed work will include; significant sitework and utility installation, construction of a two or three story building of approximately 110,000 square feet, construction of playfields, the bus loop and parking areas. The design will accommodate all day kindergarten and special education pre-school.
